ILLINOIS PLUMBING
CONTINUING EDUCATION SEMINAR

This year's Plumbing Seminar was a big success. We had 125 Plumbers from Local 101 and Local 360 attend this event. We would like to give a big thanks to the presenters for the various topics. We had Bob Schafer to discuss code related issues and solutions. We also had TekSolv here to present the safety portion. They discussed Confined Space in New Construction and Silica Hazards on the job site. Everyone seemed to enjoy the donuts and coffee for breakfast. At the lunch break we had bratwurst ready for the guys.

**LOCAL 101 JOURNEYMAN CLASS**

We have had several journeymen express interest in having a Journeymen Welding Class in the evening. At this time I am 2 members short to hold the class. If we can get some more members interested in attending the class we will put it on. The class would be taught by an instructor with both SMAW and GTAW current certifications. It would be one night a week until the end of May. Could be extended if there is enough interest in the class. If you are interested and willing to commit to attending every week, please contact Rich at the hall to sign-up and for more information.
